DISCOVER YOUR **BEST SKIN**

Dermalux Flex MD is an award winning, medically certified LED Phototherapy treatment delivering clinically proven light wavelengths to transform the skin without pain or downtime.

From the first treatment, Flex MD energises skin cells to restore vitality and calm irritation. A treatment course is recommended for powerful visible and lasting results.

We believe everyone deserves to achieve their best skin. Discover the benefits of Dermalux as part of your ongoing skin health regime.

HOW DOES IT WORK?

When clinically proven light wavelengths are applied to the skin, they have a significant impact on how we look, feel and perform. Phototherapy like photosynthesis converts light energy in the same way our bodies use nutrients from food. This in turn supercharges cell function and accelerates our rejuvenation and repair processes.

WHAT ARE THE BENEFITS?

Dermalux delivers clinically proven Blue, Red and Near Infrared wavelengths to boost collagen production, destroy acne causing bacteria, reduce inflammation, accelerate healing and relieve pain. As the light triggers a whole cascade of cell activating processes, the benefits continue even after the treatment has finished.

WHAT DOES THE TREATMENT INVOLVE?

Dermalux is a relaxing, pain free experience with proven mood enhancing effects. Enjoy some luxury me-time as your skin absorbs the energising light. Each treatment lasts up to 30 minutes and with no downtime, you can simply get up and glow!

CHOOSE YOUR **DERMALUX TREATMENT**

Dermalux is an essential part of any skin care programme to optimise and accelerate results and provides the foundation to beautiful skin.

ACTIVATE

An intensive course of 12 treatments taken in close succession is recommended for optimum cell activation. Supercharge your skin for visible results and lasting improvement.

BOOST

Individual treatments energise the skin to instantly revitalise a dull complexion, restore luminosity or calm irritation. A perfect boost before a special event or as part of an on-going maintenance programme.

COMBINE

Upgrade your favourite facial treatments with Dermalux for superior and longer lasting results or to calm sensitivity. Your Dermalux practitioner will advise you on the best combination for your skin.
