

WITH ANTEAGE MD® GROWTH FACTOR

BRIGHTENING SOLUTION

A First of Its Kind

Optimize the results of your radiofrequency or microneedling treatment when you add the regenerative power of growth factors and cytokines. We've added tranexamic acid, NAG, and melanostatin to our AnteAGE MD® Brightening Solution to fade discoloration and encourage an even complexion.

Finally, a treatment that blocks pigment from multiple pathways to get at the root of hyperpigmentation and stop it once and for all.
