- Texture & Tone
- Pore Size
- Acne Scars
- Stretch Marks
- Hyperpigmentation

RESULTS

AFTER THREE TREATMENTS:

BEFORE AFTER

Shallow micro-needles stimulate the top layers of skin, prompting a regenerative response and natural collagen growth.

AnteAGE MD® Growth Factor Solution delivers powerful anti-inflammatory, rejuvenating growth factors and hyaluronic acid to the skin. This combination can achieve dramatic results with minimal discomfort and downtime. Microneedling is one of the only safe and effective treatments for those presenting high on the Fitzpatrick scale.
