PROFHILO® BODY

EVERYONE IS A MASTERPIECE.

IBSA

Caring Innovation

SKIN OF THE BODY:

HOW TO MAINTAIN A YOUNG APPEARANCE.

The **body** - like the face - deserves to have all its **BEAUTY DETAILS** enhanced through **constant care and attention**, to keep it looking **young** and **beautiful**.

Over the **course of a lifetime**, however, the body can also undergo **major changes** that can alter its appearance, favoring the appearance of imperfections, such as

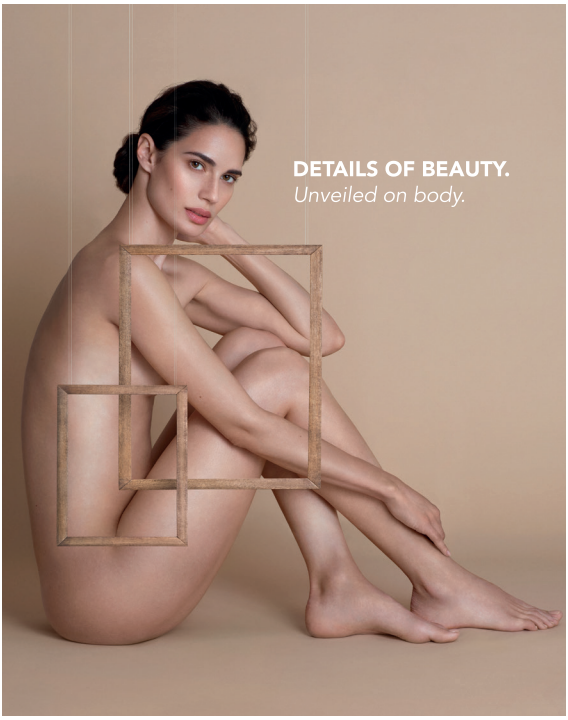
SKIN LAXITY:

skin with loss of **tone, elasticity, firmness and turgidity.**

Unfortunately, it **often happens** that women decide **to hide** the areas most affected by these imperfections, such as the inner arms and abdomen, **instead of intervening with specific treatments** (aesthetic medicine treatments and professional cosmetics).

IBSA proposes **aesthetic treatments** based on **hyaluronic acid** to **enhance the beauty of these areas** while respecting their unique characteristics, because

EVERYONE IS A MASTERPIECE.



ASK ABOUT THE MOST SUITABLE IBSA TREATMENT FOR THESE SPECIFIC NEEDS.

PROFHILO®
BODY
KIT

A COMPLETE PROTOCOL FOR THE BODY TO TREAT SKIN LAXITY.

PROFHILO® BODY KIT combines the **ACTION OF HYALURONIC ACID IN AN INJECTABLE TREATMENT**, performed in the clinic, and **COSMETIC TREATMENTS** with **CLINICALLY PROVEN EFFICACY**, to be applied after the aesthetic session, and then at home **TO MAINTAIN RESULTS.**

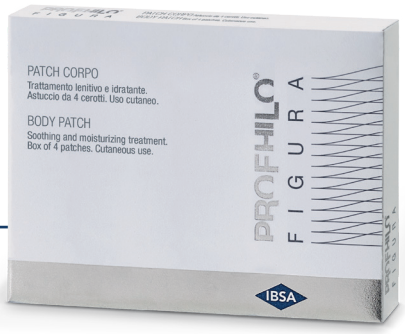
3ML SYRINGE VIAL X 2

Medical device Class III

PROFHILO® FIGURA
BODY PATCH

Cosmetic treatment



PROFHILO® FIGURA
BODY CREAM

Cosmetic treatment

PROFHILO®
BODY

PROFHILO® BODY is a hybrid complex of **two different molecular weights of Hyaluronic Acid in high concentration.**

PROFHILO® BODY intervenes in the physiological process of skin aging. It has been designed for **TISSUE REMODELING** and **IMPROVEMENT IN SKIN LAXITY**[1] of:

INNER ARM

ABDOMEN

RECOMMENDED TECHNIQUE

The **BAP Technique (Bio Aesthetic Points)** is the highly **recommended protocol for treating inner arm and abdomen.**

ADVANTAGES:

- Only 10 points of injection for each area;
- Non-invasive, as it reduces the possibility of bruises and swelling, while maximizing the diffusion of the product in the tissues;
- It does not require any prior preparation of the patient.

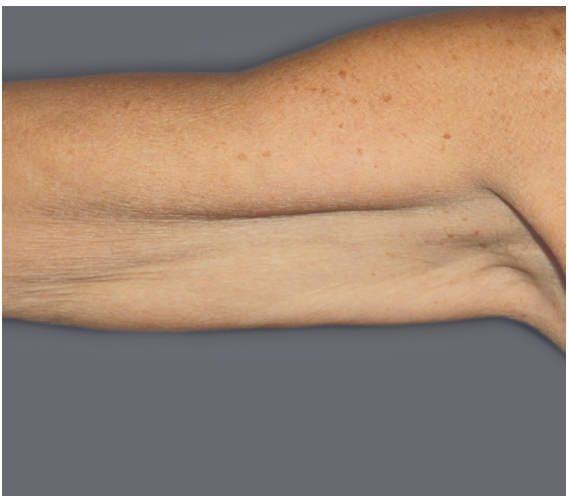
An initial cycle of **TWO TREATMENT SESSIONS WITH A 30-DAY INTERVAL** is recommended, followed if necessary by maintenance treatments.

All these characteristics make it the PERFECT LUNCH-TIME PROCEDURE, allowing the patient to go straight back to normal daily life.

BEFORE AND AFTER

INNER ARM

BEFORE



AFTER 2ND TREATMENT

The BAP injection technique focuses the action of PROFHILO® BODY where the skin appears loose and with a loss of turgor and skin tone, **bringing to treated area natural** and **long lasting dermal renewal.**

ABDOMEN

BEFORE

AFTER 2ND TREATMENT

PROFHILO®
FIGURA
BODY PATCH

Box of 4 single use patches.

Soothing and moisturizing treatment.
