TEOXANE. INJECT MORE BEAUTY INTO YOUR LIFE

What's your **skin telling you?**

Skin quality, radiance and texture influence the perception of age and your general state of health. It plays an important role on how you feel and how you are perceived.

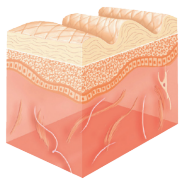
The skin undergoes natural physiological changes over time, slow and irreversible alterations due to **intrinsic factors**: oxidative stress, ethnicity and hormonal changes.

Skin is also impacted by **extrinsic factors**: sun exposure, air pollution, stress, lifestyle choices. They lead to a premature skin ageing and tend to **aggravate its visible signs**.

Throughout your life, your skin suffers the consequences of skin aging such as fine lines, dryness, laxity.[1,2]

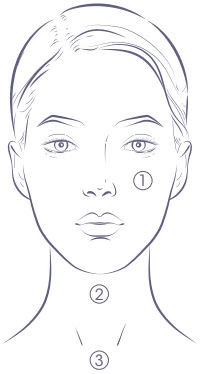
Healthy skin

Dry, brittle and wrinkled skin



Enhance your skin **quality**

Revitalizing and redensifying treatment are designed to **protect and prolong your skin youthfulness.**[1]



1. **Face -** Loss of elasticity, dry, toneless, dull, with fines lines and wrinkles
2. **Neck -** Dry, sagging with horizontal wrinkles
3. **Décolleté -** Sagging, toneless with dynamic wrinkles

In one session, TEOXANE can help you treat these 3 areas.

Redensity 1, an innovative hyaluronic acid based injectable, that has been developed to improve skin quality.[3]

Specifically designed to be the **closest to the natural hyaluronic acid** found in your skin, this **beauty booster** treatment provides:

- Improvement of **hydration** (+1400& of hydrating molecules*), **radiance** and **firmness**[4]
- Correction of skin roughness and withered skin marked by ageing[4]
- **Prevention of wrinkles** apparition[4]
- Redensification action through tissue restructuring (+98% of Collagen[3**]) and protection from oxidative stress[4,5]

Teoxane **proven satisfaction**[6,7]

Nearly 20 years of continuous innovation and trusted millions of injections world wide.

97% of patients are satisfied by Redensity 1 for **redensifying and revitalising treatment**[8]

Ask your practitioner for your beauty booster treatment to help take care of your skin. Redensity 1 can be used as a standalone treatment or combined with another aesthetic procedure.

Maintain and optimize the treatment at home[9]

Teoxane developed dermocosmetic products based on our unique patented crosslinked HA technology. This premium range is formulated to strengthen, plump, hydrate and protect the skin from ageing aggressors.

Our best seller, RHA® Serum, highly concentrated with our patented HA crosslinked technology will help to **maintain skin texture, hydration** and provide a **tightening effect** in as little as 14 days.[10]

After 14 days of use

91% OF PATIENTS NOTICED THAT **THEIR SKIN IS SMOOTHER**[11]

About filler injections

What is Hyaluronic Acid?

In our skin, Hyaluronic acid (HA) is already present in large quantities. It has a significant ability to attract and bind water molecules, HA is important for maintaining structure and volume in the skin.[11] HA dermal fillers is one of the most popular anti-ageing injectable treatments available to address age-related changes in skin quality and appearance.They have replaced collagen as the ingredient of choice for skin rejuvenation and volume restoration.

What happens during the Beauty Booster treatment?

A treatment with Redensity 1 consists of dermal injections over the surface of the whole face, neck and/ or décolleté. For optimum comfort throughout the treatment, Redensity 1 contains lidocaine which is a local anaesthetic.

How long does the effect last?

For an optimal result, a treatment plan of 3 sessions at 3-week interval is recommended with lasting results up to 9 months.[5] For maintenance, 1 session every 4-6 months thereafter is ideal. However, it effect is temporary and depend on several factors (skin type, treated area and injection technique).

What to expect after a dermal filler injection

Most of the patients notice little downtime and can have their treatment done during lunch break for example. However, side effects may appear: they are most often temporary and common.

In case of side effects following treatment with Teosyal® injectables, you should immediately contact your injector.
