WANT SKIN THAT FEELS LIKE YOU AGAIN?

Collagen is a key component of youthful-looking skin.
As we age, our body's collagen production starts to decline – so skin loses firmness.

STIMULATE YOUR OWN
COLLAGEN FROM WITHIN

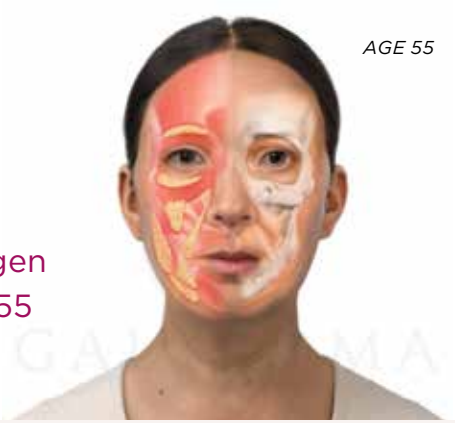
ASK ABOUT SCULPTRA TODAY

SCULPTRA®
by GALDERMA

Collagen provides your skin with firmness, elasticity and structure

Loss of collagen is a universal cause of skin aging. From the age of 20, our body's collagen production starts to decline at a rate of 1% per year, so skin feels less firm over time.

Up to **35%** of collagen may be lost by age 55



Test the firmness of your skin with three simple checks:

1. PINCH

Lightly pinch your face.

Does your skin feel thin? Does it stretch?

2. PUSH

Lightly push your cheek upwards.

Does your skin sag?

3. SMILE

Look in the mirror and smile.

Can you see fine lines and wrinkles around the cheeks?

SCULPTRA – RESTORE YOUR SKIN'S OWN NATURAL COLLAGEN

The first and original collagen stimulator, Sculptra's unique stimulation process works deep within the skin to restore your own collagen – for radiant, firmer, youthful-looking skin.

Sculptra gradually rebuilds the foundation of the skin, leaving it feeling firmer for up to 2 years.

REAL PATIENT BEFORE & AFTER

GABRIELA

Treated over 2 sessions, 1 vial per session; 9 weeks between sessions.

Before
Skin's own collagen is lost over time

3 months
Fast, visible improvements

6 months+
